

Under the Dubai Airport Free zone, companies can obtain one of the two following [licenses](#):

Trade License

- For import, export, distribution, and storage of specific products.

Service License

- Obtaining a service license requires consultation with a sales executive.

For a detailed list of license required by each sector, please visit the [Dubai Airport Free zone website](#).

Note: Every license has different costs. Healy Consultants can provide an accurate quotation after agreeing with client's specific business needs. All government fees are to be supported by invoice.
